

Trinity Aug. 12. '39.

My Dear Friend.

I wish you to do me the favor
to let me know tomorrow or
next day what the probability
is of our having a full R. R.
Com. meeting on Thursday evg.
It will not be particularly con-
venient to me to come in that
evening. I do not wish to come
in vain. If the probability of
a good meeting is strong I
will make an effort to come.
Though I am not confident
of being there. Besides the
arrangements for the Annual
Meeting the question of the

162

weekly publication of the
Am. Resistant after January
next should be considered,
& the frame matter of an
editor taken into serious
consideration. It is not a
whit too early to be thinking
& casting about for the person.

I trust your arm is
recovered - There are few
arms which cannot be better
spared than yours in the
various battle-fields of the
day. When is "Right & Wrong" to
appear? I begin to wax im-
patient for the fluttering of the
Volscians.

I did intend throwing the next
No. of the R.R. upon your shoulders
but finding that one of them was
lame I assumed the responsibility.
I trust you will prepare some
matter for the one after the next -
for I am perfectly sick & tired
of E. L. & want to see the sub-
-scription M. W. C. once more. Pray
put up our friends to getting out the
next No. in time.

I think a visit to Quincy
would be of service to disperse
the remains of your speculation -
pray consider of it.
Give my kindest regards to
your husband & sisters
& believe me ever
your friend
Edward Quincy.
M. W. C.
